## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

Southside Housing Association - Two Year Multi-Lot Contracts for Void Property Works

#### **II.1.2) Main CPV code**

- 50700000 - Repair and maintenance services of building installations

#### **II.1.3) Type of contract**

Services

#### **II.1.4) Short description**

Southside Housing Association is procuring a Multi-Lot Contract which shall deliver Void Property Works throughout Glasgow. The procurement aims to establish individual Contract's for;

- Lot 1 – Pollokshields Properties Service Provider A
- Lot 2 – Cardonald Properties Service Provider A
- Lot 3 – Cardonald Properties Service Provider B
- Lot 4 – Pollokshields Properties Service Provider B

Void Property works are currently delivered by City Building LLP to Southside Housing Association as part of a single Service Provider Contract that encompasses Responsive Repairs, Void Property Works, Out of Hours Call Handling and Out of Hours Emergency Works as part of a single Contract. The structure of the existing contract delivered by City Building LLP is changing from a single Service Provider contract to six separate Lots of Responsive Repairs contracts, four separate Lots of Void Property Works contracts and a single contract for Out of Hours Call Handling and Out of Hours Emergency Repairs works. This ITT and procurement relates to procurement of four separate Lots contracts for Void Property Works. The multi-Lot contracts for Responsive Repairs and single contract for Out of Hours Call Handling and Out of Hours Emergency Repairs are being undertaken as separate procurements to this opportunity.

The properties applicable to each Lot are described within Tender Document E Part 1 and Part 2, and it is intended that the Service Providers appointed to Lot 1 and Lot 4 will deliver the requirements for the Pollokshields properties listed in Tender Document E Part 2. It is also intended that the Service Providers appointed to Lot 2 and Lot 3 will deliver the requirements for the Cardonald properties listed in Tender Document E Part 1.

The properties are anticipated to include sandstone tenement flats, multi-storey flats, new build modern housing and flats, and post war pre-2000 construction houses and flats. It is anticipated that the approximately number of void properties works undertaken annually for each Lot will range between thirty and fifty void properties. However, this approximate volume of work is not guaranteed and may fluctuate depending on the number of properties that become void during each year of the Contract's.

Southside Housing Association may also introduce newly acquired or developed properties during the term of the Contracts and may also vary the tender address list to retain a balanced approximate fifty/fifty split of property allocations between each geographical area throughout the term of the Contracts.

Bidders may submit a bid for each individual or all Lots and should indicate the Lot's that they wish to bid for within their response to Question 2A.18 of SPD(Scotland) v1.2\_0.
