AEB subcontract provision for Construction Skills Training within close proximity to Solihull College and University Centre

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £3,360,000

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKG32 - Solihull

Main site or place of performance

Within close proximity to Solihull College and University Centre

II.2.4) Description of the procurement

Significant growth in housing and infrastructure developments in the West Midlands (including HS2) have triggered labour shortages in the local area. A CITB Construction skills gap analysis for the West Midlands Combined Authority area identified employer-based plant operative training is urgently required to address these skilled labour shortages.

This analysis identified 83% of construction workers in the West Midlands are interviewed on a site located within the same region as their current residence. The WMCA funding is split into key geographical areas and to support disadvantaged candidates in Solihull and the surrounding areas training must be offered within close proximity of Solihull College and University Centre.

Key objectives for this delivery outlined in the WMCA funding rules state that the role of providers is to "deliver better value for money in terms of progression (within providers and onto College), reduce 'churn' generated through employability programmes (in-work training provision) and provide clearer access points for individuals at community level".

The College requires a subcontract partner with experience of WMCA AEB, funding and audit rules, and with CSCS and CPCS accreditation to deliver Level 1 and 2 Construction Skills training in a simulated live environment to enhance learner employability in the Solihull Borough and the WMCA region.

The subcontract partner will be responsible for the sourcing of, training of and supporting into employment of 450 learners (anticipated annual volume) between 01 August and 31 July in cohorts of between 10-12.

It is essential that the subcontractor partner can evidence sustainable employment for at least 50% of learners at 13-weeks employment. Further to this requirement the subcontractor must also be able to evidence proven experience of engagement with disadvantaged candidates (unemployed; recently redundant; on zero hours or low pay contracts; ex-offenders; and other under represented groups).

The subcontract relationship will support the Construction Gateway in Solihull operate for a minimum three-year term with annual review (contract will be subject to ongoing satisfactory performance and funding availability).

II.2.11) Information about options

Options: Yes

Description of options

Subject to ongoing satisfactory performance, WMCA funding rules and available funding the contract may be extended for another 2 years in 1 year increments.

II.2.14) Additional information

Please refer to the following independent sources:

CITB, Construction skills gap analysis for the West Midlands Combined Authority area. May 2018 see <https://www.wmca.org.uk/media/2235/construction-skills-gap-analysis.pdf>

For further information regarding the Construction Gateway please see <https://beta.wmca.org.uk/in-my-area/projects/construction-gateway-in-solihull/>

WMCA AEB funding rules - <https://www.wmca.org.uk/media/4196/25-august-wmca-aeb-funding-rules-2020-2021-v13-clean.pdf> Note: 21-22 rules are expected for release in July but no major changes to strategy are anticipated.

The intention to award to RMF was approved by Governors on 27.05.21 subject to completion of satisfactory due diligence and WMCA approval.

A contract will not be entered into by the College before 05.07.2021 to enable any valid challenges to this award to be made.

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated without a prior call for competition

- The works, supplies or services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

Solihull College and University Centre believes that RMF Construction Skills Training Academy Limited is the only subcontractor capable of delivering the services required meeting all of the criteria identified which are in summary:

- To meet WMCA AEB funding guidelines and capacity requirements (while delivering value for money via management / assessment),
- Licensed to CSCS and CPCS to deliver Level 1 and 2 Construction Skills training with a proven track record in plant training delivery in a simulated live environment
- Having the ability to source, train and support into employment 450 learners (anticipated annual volume) between 01 August and 31 July in cohorts of between 10-12.
- Able to evidence sustainable employment for at least 50% of learners at 13-weeks employment and also to evidence proven experience of engagement with disadvantaged candidates (unemployed; recently redundant; on zero hours or low pay contracts; ex-offenders; and other under represented groups).
- Within a close proximity to Solihull College and University Centre in order to support disadvantaged candidates in Solihull and the surrounding areas

In order for the College to continue to be in receipt of funding for entry level and level 1 construction the College is required to have in place a construction gateway offer to transition unemployed individuals into work from August 2021

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No
