Description

For the past few years, CPC has outsourced the contract management of its Cashless Payment Solutions framework agreement for various reasons, one of which being capacity internally. We are now looking to bring this framework back in-house and this tender exercise will form the new iteration of the framework.

Suppliers must be capable of delivering high-quality, cost-effective Electronic Payment Devices, Software and Professional Services to institutions such as schools, academies, colleges, universities, and educational trusts, as well as local authorities and the wider public sector.

CPC will be using the MultiQuote e-Tendering platform to carry out this tender.
