Supply of testing units plus 5 year service agreement

II.2.11) Information about options

Options: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The works, supplies or services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

There is only one piece of equipment that allows an operative to establish the connected phase and power status without having to connect to the network or enter a customer's property. The PIU also provides other functions that provides other information about our network. We would be unable to fulfil the business as usual ambitions without this product. There are no alternative providers who can offer an equivalent product.

As part of the requirements to gain funding through the Network Innovation Allowance process it is a prerequisite that there cannot be a solution already in place. This is also checked by other DNO's as part of the 10-day review process.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section V. Award of contract

A contract/lot is awarded: Yes
