Reference

PRO004614

Description

Ordnance Survey data is a functional component to UU. United Utilities leverages mapping technology extensively to manage and optimize our vast network of water and wastewater assets included but not limited to:

1. Geographical Information system (GIS): used to consolidate asset records into a single database. This helps in tracking and managing over 76000km of sewers and 42000 of clean water pipe.
2. Asset Mapping: Improved the tracking of transferred assets and better maintenance and proactive works
3. Improved data quality: enhanced data and reduced customer service costs with the mapping technology

We require access to:

- OS MasterMap Topography
 - OS AddressBase Premium
 - OS MasterMap Highways Road
 - Codepoint Polygons
 - Terrain 5 Tiles
-

Contract 1. PRO004614-Ordnance Survey Licences 2023

Supplier

- [LANDMARK INFORMATION GROUP LIMITED](#)

Contract value

- £510,056.42 excluding VAT
- £612,067.70 including VAT

Above the relevant threshold

Earliest date the contract will be signed

11 April 2025

Contract dates (estimated)

- 14 April 2025 to 1 April 2026
- 11 months, 18 days

Main procurement category

Services

CPV classifications

- 71354100 - Digital mapping services

Other information

Conflicts assessment prepared/revised

Yes

Procedure

Procedure type

Direct award

Special regime

Utilities

Direct award justification

- Single supplier - technical reasons
- Additional or repeat goods, services or works - extension or partial replacement

Prior to 2012 the only available procurement route for Ordnance Survey (OS) data products was by a monopoly purchase arrangement with the OS themselves. The opening up of a reseller market allowed us to follow a tendered provision in 2012. Subsequently, these data products were purchased through two successful OJEU tenders, in 2012 and 2015. The renewal scope has not changed from previous years and includes:

- OS MasterMap Topography
- OS AddressBase Premium

- OS MasterMap Highways Road
- Codepoint Polygons
- Terrain 5 Tiles

As well as the OS mapping technology, Landmark are providing an integrated automated service wrapper that if removed it would impact Accenture's support costs as there would be much more manual activity involved -This interoperability is the reason why we must direct award.
