II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

The purchase is for high quality scientific hardware for teaching, linked with a cloud-based learning platform. The platform is populated with high quality, ready to use teaching content. Importantly, where the content does not match what we currently teach, or is absent, we have full editorial rights so can add or edit as required. Therefore, we can enhance the quality and quantity of the practical experiences our student cohort currently benefits from in the lab – and away from it. This is the only company that currently offers a cloud-based, GDPR compliant, learning platform with this combination of features. This purchase is in fact a follow-on subscription; there is no practical alternative to this platform and even if there were, given the University's investment in developing the content, the switching costs would be prohibitive.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section V. Award of contract

Contract No

NCA30990

A contract/lot is awarded: Yes
