It is anticipated that the new service will be procured via a standard NHS contract with a contract duration of initially seven years plus the option to extend by a further three years, commencing 1 April 2026 with the aim of ensuring individuals with hearing impairments have access to a high-quality, efficient community hearing aids service that is delivered near their homes, with short waiting times and a high level of responsiveness to the needs of local communities.

An RFI questionnaire is available at: <https://atamis-1928.my.salesforce-sites.com/?searchtype=Projects>

VI.3) Additional information

This Request for Information (RFI) process is designed to help the Commissioner to form a view of the best way to commission the service and is not the beginning of a Tender exercise.

A Tender advertisement may be issued at the appropriate time, if required, should the Commissioner consider that the optimum route to commission the service is through a procurement process.

Your feedback at this point will not have a bearing on any future Tender submissions you may wish to offer later, should the Commissioner undertake a procurement for this service. You

will not be disadvantaged if you choose not to respond to this RFI, but it will be helpful to understand your views at this early stage, so you are encouraged to respond as fully as you can.

Interested providers will be able to view this opportunity via the live opportunities list on the 'Health Family' e-procurement system, Atamis. Click on 'View our Live Opportunities' from
