I.2) Information about joint procurement

The contract is awarded by a central purchasing body

I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Education

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Upgrade to Coastal basin

Reference number

EW/UoP/Coastal_basin/2024

II.1.2) Main CPV code

- 34930000 - Marine equipment

II.1.3) Type of contract

Supplies

II.1.4) Short description

The work required to be undertaken is wide ranging, but all linked to upgrading the Ocean Basin at Plymouth University.

The Ocean Basin was built by Edinburgh Designs after they won the original tender process. The design of the basin and all the associated hardware and software were provided by them as part of that original build.

This work is to replace worn parts and future-proof the facility by upgrade equipment that is now obsolete.

While several of the component parts of this work, including the motor drives and hydraulic pistons and pumps are available from other suppliers, each of these parts needs to be controlled by and integrated into the existing overall control systems. These control systems use hardware and software that are build and written by Edinburgh Designs.

Please note that this is a VEAT notice, therefore there are no tender documents linked to this notice.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £589,704

II.2) Description

II.2.2) Additional CPV code(s)

- 45244100 - Marine installations

II.2.3) Place of performance

NUTS codes

- UKK41 - Plymouth

II.2.4) Description of the procurement

The work required to be undertaken is wide ranging, but all linked to upgrading the Ocean Basin at Plymouth University. The Ocean Basin was built by Edinburgh Designs after they won the original tender process. The design of the basin and all the associated hardware and software were provided by them as part of that original build. This work is to replace worn parts and future-proof the facility by upgrade equipment that is now obsolete. While several of the component parts of this work, including the motor drives and hydraulic pistons and pumps are available from other suppliers, each of these parts needs to be controlled by and integrated into the existing overall control systems. These control systems use hardware and software that are build and written by Edinburgh Designs. For this reason, Edinburgh Designs Ltd are the only supplier capable of supplying the required work package. Please note that this is a VEAT notice, therefore there are no tender documents linked to this notice.

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

The Ocean Basin was built by Edinburgh Designs after they won the original tender process. The design of the basin and all the associated hardware and software were provided by them as part of that original build.

These control systems use hardware and software that are build and written by Edinburgh Designs.

For this reason, Edinburgh Designs Ltd are the only supplier capable of supplying the required work package.
