II.2.4) Description of the procurement

As a means of supporting young people accessing the CREDU Project, Swansea Council is specifically looking to source a provision that has a focus around careers/experience in the Military.

The majority of the pupils that will be accessing this provision demonstrate challenging behaviour in their education setting, confidence issues and have complex needs who have interest in practical activities. Whilst the provision will be delivered in a group setting, the ability to manage and meet the needs of individuals with challenging behaviour and needs will be imperative.

These pupils have poor motivation and ambitions for the future so a provision that will engage the pupils in structured activities, which will help them to develop team-work, and communication skills: they need intensive support using engaging, hands-on, motivational activities. Guidance on appropriate behaviour, developing self-respect and respect for others, and reducing risk-taking behaviour is required. This provision must have Military focus.
