- 85000000 - Health and social work services

#### **II.1.3) Type of contract**

Services

### **II.1.4) Short description**

NHS Midlands and Lancashire Commissioning Support Unit (MLCSU) is working on behalf of NHS Lancashire & South Cumbria Integrated Care Board (ICB) who are looking to undertake a multi-lot Competitive Process for the provision of Dementia Post Diagnostic Support Services.

It is the intention of the ICB to start commissioning

contracts for the above services from 1st July 2025

for 3 years, with an option to extend for a further 2

years.

Lot 1 - Blackpool - £108,885

Lot 2 - East Lancs - £199,624

Lot 3 - Central & West - £244,993

Lot 4 - Blackburn with Darwen - £90,738\*

Lot 5 - Lancs North - £172,270

Lot 6 - South Cumbria - £90,738

\* Please note Lot 4 will not commence service until April 2026 and will therefore be a contract length which is shorter than the other lots but is co-terminus.

### **II.1.6) Information about lots**

This contract is divided into lots: Yes

### **II.1.7) Total value of the procurement (excluding VAT)**

Value excluding VAT: £4,468,847

## **II.2) Description**

- 85000000 - Health and social work services

## **II.2.3) Place of performance**

NUTS codes

- UKD42 - Blackpool

Main site or place of performance

Blackpool and surrounding area

## **II.2.4) Description of the procurement**

Post diagnostic support (PDS) covers a range of services and information available to help those diagnosed with dementia and their carers, both immediately after diagnosis and onwards. It must be on-going and flexible to adapt to the changing needs of the person, carer and family as the disease progresses. For many carers, and for those with Young Onset Dementia, this can also include employer awareness and support. PDS includes many different options in many different settings - in primary care, in memory assessment services, and in the community. It includes things such as signposting to up to date and locally available

services, medication and medication reviews, carer support, cognitive stimulation therapy, dementia friendly communities and so on - whatever helps those diagnosed with dementia and their carers to live as well as possible for as long as possible with

their condition.

Post diagnostic support needs to be multi-layered.

However, enabling a single coordinator or navigator will allow people to understand and manage their Dementia better and have access to support throughout the pathway to the end of life.

The objectives of the service will be to:

- Provide a named contact through an individual's journey with dementia

- Provide access to personalised information, advice and support as identified
- Enable individuals with a diagnosis to access all support deemed to be essential post diagnosis
- Support individuals with a diagnosis to maintain their community connections and make new ones
- Support individuals with a diagnosis and their families to access peer support
- Provide support for the people who support and care for the person with dementia
- Establish a plan of needs, support and contact which will be revisited as part of a regular review
- Create and maintain links with all relevant support services and networks who will provide support and care to the individuals
- Improve individuals understanding of their illness and management of symptoms
- For individuals who do not want the service, they will be made aware that if they want to access the service in the future, they can by contacting the dementia navigator directly.

The contract length for all contracts will be 3 year(s), with an optional extension of 2 year(s), starting 1st July 2025.

### **II.2.5) Award criteria**

Price

### **II.2.11) Information about options**

Options: Yes

Description of options

The contract length for all contracts will be 3 year(s), with an optional extension of 2 year(s), starting 1st April 2025.
