The contractor/concessionaire is an SME

No

VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

The modification will be an extension of current services with the existing provider. The proposed length of the contract will be for additional 12 months and will commence on 1 April 2026 and end on 31 March 2027. The additional value of the contract based on the indicative contract budget will be previous 3 years will be £315,000

The contact is activity based and has always remained well within the contract budget value.

VII.2.2) Reasons for modification

Need for additional works, services or supplies by the original contractor/concessionaire.

Description of the economic or technical reasons and the inconvenience or duplication of cost preventing a change of contractor:

It was the intention that a Single Point of access using a digital platform, which also presents the option of onward referral including other services traditionally delivered in Primary Care would be procured from 1 April 2025 on a SY wide basis. However, due to financial pressures within the ICB and therefore unable to progress through a route for investment for the planning round 2025/26, places have no alternative but to procure services locally until this is resolved.

Considering the circumstances and the timescales of undertaking a full procurement a Modification notice for a 12-month period is required to allow for this work to be undertaken.

All places have agreed to work collaboratively to progress this in developing a SY ICB service specification for Community Eye Care alongside progressing the SPA option.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £391,000

Total contract value after the modifications

Value excluding VAT: £315,000
