### II.2.4) Description of the procurement

NHSBT requires a direct contractual relationship with either the manufacturer or any other economic operator for a complete end-to-end integrated solution, which must include all the necessary equipment, installation, maintenance, consumables, reagents, and IT provision of hardware, middleware and software, allowing interoperability over a private VPN between the supplier and NHSBT and connectivity to the NHSBT LIMS systems, and an overall on-going support mechanism that will be required to carry out the necessary testing as stated below.

A complete solution (test system) includes all necessary maintenance, consumables, software and overall support required to carry out the testing. All invitro diagnostic medical devices, for example, instruments, consumables, and reagents must be CE/UKCA marked. GB will continue to recognise CE marking until the UK requirements fully apply (subject to transitional arrangements set out for CE marked devices), in compliance with the UK Medical Devices Regulations 2002, as amended.
