Section VI. Complementary information

VI.3) Additional information

We are of the view that the proposed framework length & option to extend beyond four years in this case is an "exceptional case" for the purposes of Reg 33(3) of the PCRs 2015: 1 - NHG is working towards meeting EPC-C by 2030 & it is critical to NHG that we build & maintain strong relationships with the members of this framework, to work together to meet the challenges ahead. We expect this period to exceed the standard 4-year term for frameworks under the PCRs 2015. 2 - NHG are setting out a new approach to delivering long term social value through the framework & believe that a long-term partnering approach is the only way to achieve this.
