Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated without a prior call for competition

- No tenders or no suitable tenders/requests to participate in response to open procedure

Explanation:

Justification for the direct award under Regulation 32(2) A.

WECA intend to directly award a contract to City Energy Networks for the services described in this notice.

It is doing so for the following reasons:

1. For the Solent LEP area. The initial open procedure procurement exercise linked to notice FTS number 2021/S 000-004760 – dated 09/03/21 failed to generate any suitable tender submissions within the meaning of Regulation 32(3) (i.e. in relation to suitable tenders).
2. WECA is of the view, acting in good faith, that the intended contract award is made in compliance with Regulation 32(2)(a) as the initial contract conditions will not be substantially altered. The key contract terms (payment model, liability levels, indemnity levels) remain unaltered. Delivery time frames (i.e end of December 2021) remain unaltered.
3. Despite not being explicitly required to do so by Regulation 32, WECA has sought to apply the same selection criteria as used in the initial procurement to the intended contractor for the purposes of fairness and transparency. However, it has not applied the original rule in relation to turnover requirements, and would note that the resulting contract award will result in City Energy Networks effectively being awarded more than 2 “lots” overall, i.e. when taking into account the original rules of the initial procurement which stipulated that one contractor could only be awarded up to 2 “lots”. Furthermore, WECA has applied a more proportional approach to Public Liability insurance, requiring a baseline of £5m rising to a maximum of £25m when high risk installations are identified.

It is our intention to conclude contracts on or around the 10th of July 2021.
