#### **II.2.4) Description of the procurement**

Tenderers are invited to submit their offers for the Hertsmere Borough Council for the provision of a hard FM and soft FM aligned service. There will also be requirements for additional and small works and services to be provided at the Authority's non-domestic public buildings. These activities will all be coordinated through the use of a CAFM system. The conditions of contract are the core options of the NEC 4 Facilities Management Contract June 2021 (with amendments January 2023). In the hard FM services element of this contract, for the Civic Centre and the Cranbourne road Depot, we are seeking an SFG 20 industry standard as a quoted price. This must be taken into consideration in the Tenderers pricing schedule submission. For the rest of the estate we would expect the pricing to cover PPMs, reactive maintenance and legal compliance. The Authority has a property portfolio, located within the geographical boundaries of Hertsmere. This core property portfolio comprises of offices, depots, industrial units, and a selection of other miscellaneous properties. Due to the changing service needs of the Authority, the contractor must take into consideration variations both positive and negative will apply. Your pricing schedule should break costs down by site, thus when a site is taken out of the portfolio we are all clear on the cost and budget reductions to be applied. If the m2 rate benchmark can be shared the council will also understand the likely quantum of budgetary increase to be applied when additional properties are added to the portfolio. The Authority is looking for a single supplier, either one organisation or a group of

organisations operating as a single entity for the purposes of this contract.- Hard FM services provision. [with effect from 1st September 2024]- Soft FM services provision. [with effect from 3rd December 2024]The Authority is conducting this procurement pursuant to the Open Procedure because it is able to specify the solutions capable of satisfying its needs and the legal and financial makeup of the Contract. It does however mean that there will be no opportunity to enter into dialogue or negotiation around the Contract or the proposed Contract. Accordingly, Tenderers are encouraged to make the best use possible of the clarification process. Since there will be no dialogue or negotiation, Tenderers must ensure that they have understood the Authority's requirements.To enable fulfilment of the Authority's ongoing building related statutory and additional obligations, a contract award is required for the provision of a broad range of essential property maintenance services throughout the Authority's property portfolio.The proposed duration of the contract shall be 7 years (5+1+1) from the date of the relevant agreement (the Term). Subject to satisfactory performance of the Contractor during the first 5 years of the Term the Authority may wish, at its sole discretion, to extend the contract for a further period of 1 year + 1 year. The contract will allow the Authority to commission works and services from the appointed Contractor as and when required. It should be noted that the hard services elements of this contract will start from 1st September 2024, and the soft FM services will commence from the 3rd December 2024, the whole contract will terminate co-terminus; the contract end date being 30th September 2029.
