This is a Public Contracts Regulations (PCR) 2015 procurement termination notice confirming the decision to abandonment the tender process for the provision of a Project Portfolio Management Solution. The Authority has made the decision not to proceed with this procurement due the recent changes and challenges to the wider NHS environment calling for an adjustment to the specification to better accommodate and future proof the service, and the need to increase the scope of the project to include other departments. It is the Authority's intention to re-run a procurement for this provision.
