Description

The Councils EV Strategies highlights the importance of providing charging solutions for residents without access to off-street parking, alongside wider commitments to ensure equitable access to EV charging across both urban and rural areas. Subsequently, the Councils applied for and have successfully been awarded the OZEV's EV Pavement Channels Grant to work towards meeting this strategy. We are looking to determine which suppliers may be capable of fulfilling the requirements of county-wide cross pavement EV charging installation and are currently in the Pre-Market Engagement stage of this project.
