Body governed by public law

I.5) Main activity

Other activity

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Trawsfynydd Reactor Buildings Height Reduction

II.1.2) Main CPV code

- 45111100 - Demolition work

II.1.3) Type of contract

Works

II.1.4) Short description

Partial demolition of each Reactor Building, reducing the overall height , together with an extensive package of civil new build and remedial works

See full description and Scope document for further details

II.1.5) Estimated total value

Value excluding VAT: £53,000,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 45111100 - Demolition work
- 45510000 - Hire of cranes with operator
- 45113000 - Siteworks
- 45500000 - Hire of construction and civil engineering machinery and equipment with operator

- 45262660 - Asbestos-removal work
- 45262310 - Reinforced-concrete work
- 45262330 - Concrete repair work
- 45262300 - Concrete work
- 45262100 - Scaffolding work
- 45200000 - Works for complete or part construction and civil engineering work
- 45111300 - Dismantling works
- 45111000 - Demolition, site preparation and clearance work
- 45262120 - Scaffolding erection work
- 45262110 - Scaffolding dismantling work
- 45210000 - Building construction work
- 45110000 - Building demolition and wrecking work and earthmoving work
- 45000000 - Construction work
- 45111200 - Site preparation and clearance work
- 45111100 - Demolition work

II.2.3) Place of performance

NUTS codes

- UKL12 - Gwynedd

Main site or place of performance

Trawsfynydd Site
Blaenau Ffestiniog
Gwynedd
LL41 6NT

II.2.4) Description of the procurement

Magnox Ltd. is responsible for the safe and compliant decommissioning of Trawsfynydd Nuclear Power Station in Gwynedd, North Wales. Built in the early 1960's, the Site ceased generating electricity in 1991 and has been undertaking decommissioning works since.

The next phase of the decommissioning programme will principally feature modification of the two former civil nuclear Reactor Buildings which, in current state, offer safe and secure storage of housed plant. The project will involve the systematic deconstruction and partial demolition of each Reactor Building, delivering a reduced height configuration compliant with existing planning commitments and lessening the visual impact on the landscape. In addition, a package of civil new build and remedial works will be delivered to prolong the durability of the retained structures and reduce disproportionate asset management liability. The end product will offer compliant protection of the stored inventory, ready for successor phases of decommissioning activity on the Site.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £53,000,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

36

This contract is subject to renewal

No

II.2.9) Information about the limits on the number of candidates to be invited

Envisaged number of candidates: 5

Objective criteria for choosing the limited number of candidates:

As set out in the Expression of Interest

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section III. Legal, economic, financial and technical information

III.1) Conditions for participation

III.1.1) Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions

All requirements are set out in the Selection Questionnaire Section

III.1.2) Economic and financial standing

Selection criteria as stated in the procurement documents
