Stockpile resilience for the supply of Enteral Feed and Consumables for COVID-19 Patients.

Four contracts awarded in preparation for the expected Winter/Spring surge in COVID-19 hospital ICU admissions.

Please note, the previous contract notice regarding this award (reference 2021/S 065-169955) was published with the Year 1 committed values only. While the previous notice confirmed the contracts contained an option to extend for a further 12 months, the overall value provided in the notice did not include the value for that option to extend (i.e. the previous notice reflected the value of year 1 only). This notice seeks to remedy that oversight and contains the full value of the contract awarded (i.e. this notice reflects the value of year 1 and year 2 to include the value of the option to extend). The only change from the previous notice is the update of the full value of the contract. All previous information, as per the original notice, remains unchanged. The updated total spend value under this contract (for the 2yr duration) is:

Total = £11,711,998
