# VI.3) Additional information

Radioactive Waste Management Limited (RWM) are launching a seismic surveying programme to support RWM in its work towards a implementing a Geological Disposal Facility.

We are seeking to award framework agreements which, through different tenders, will provide us access to a full range of seismic services, including seismic acquisition (in different environments) processing of seismic data and interpretation services.

Future tenders will include interpretation of seismic data, and acquisition of seismic data in other environments, including shallow water and if required, land and transition zones.

This tender sets out the scope for 3 Lots which are specifically focused on acquisition of 2D and 3D seismic data in deeper water ( 10m water depth) and the processing seismic data in marine environments.

Contracts will be called-off this framework agreement to provide the services in different Community Partnership areas around England and Wales as they come forward, increasing RWM's understanding of the geology to feed into decisions on site suitability and aid future planning.
