II.1.3) Type of contract

Services

II.1.4) Short description

SeaWeb is a service used by MAIB to support accident Investigation. SeaWeb is a commercial service offering a resource and database of international shipping activities. This service combines comprehensive data on ships, owners, shipbuilders, fixtures, casualties, port state control, ISM, real-time vessel movements and ports information into a single application. There are limited service like this available and a single tender is required as the HIS Markit SeaWeb service is the most comprehensive and up to date service available. S&P Global Justification - The single tender is for 2 services: • SeaWeb data Service COMPASS API. This takes a direct feed from SeaWeb into the MAIB Case Management system and allows users to easily populate vessel and company information relating to an investigation. • SeaWeb Online Subscription 1 login with up to 5 users. This is a single shared login to the SeaWeb website via a web browser. This is used by all staff to search for relevant information regarding a vessel, it's owner and other associated information regarding the management of a vessel. Without access to this information, it has a potential to delay our investigations.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £19,942.70
