II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

Providers must be capable and competent to collect, package securely, treat, identify suitable disposal options (for example, landfill or high temperature incineration) transport and facilitate final disposal of the various waste streams in accordance with regulations and where appropriate guidance from regulators. Consideration must be given to the selection criteria e.g. cost v benefit analysis such as fast disposal of possibly contaminated waste compared to increased time scale of additional sampling to prove waste is harmless. Size reduction techniques should be considered if appropriate, along with the additional risk to remediation operatives compared to savings in time and/or cost with the disposal route.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents
