- UKE42 - Leeds

Companies House

Private Limited Company

The contractor/concessionaire is an SME

Yes

VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

Additional services "have become necessary" because home care is a statutory requirement for the authority to provide and the recommissioning process has revealed several significant changes that need to be made in shaping a new model of home care type support in the future.

This significant programme of change requires additional time to undertake the necessary consultation and analysis of current provision. Consequently, the extension period will ensure continuation of provision whilst allowing the time to review the findings from the external Consultants, and plan for the Community Health and Wellbeing Service pilot, including market engagement and planning interim contractual arrangements for the period following this extension whilst the pilot is taking place

The development of a proposed partnership arrangement with local NHS services, due to the complexity of this, further time is required to work through the detail, systems, and processes to make it a success.

The Council is not currently in an adequate position to procure a new service, due to the technicalities of redesigning future home care provision to which has been brought about because of consultation with the market and end users.

VII.2.2) Reasons for modification

Need for additional works, services or supplies by the original contractor/concessionaire.

Description of the economic or technical reasons and the inconvenience or duplication of cost preventing a change of contractor:

Additional services "have become necessary" because home care is a statutory requirement for the authority to provide and the recommissioning process has revealed several significant changes that need to be made in shaping a new model of home care type support in the future.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £201,000,000

Total contract value after the modifications

Value excluding VAT: £55,066,666
