SCH12/FC06

Description

The Upper Alde & Ore Estuary Embankment Improvements scheme will reduce tidal flood risk and enhance the environment in the Upper Alde and Ore Estuary.

The Alde and Ore Estuary is vulnerable to flooding from the sea made worse by the poor condition of many of the flood defences.

The proposed Flood Cell 06, Snape Maltings scheme is 1 of 4 cells identified to improve the Standard of Service of the existing flood defences and provide resilience to withstand 300mm of overtopping from a 1:200+ year event, given predicted sea levels in 2050.

The Client is the East Suffolk Water Management Board.

In summary, the scope of Works for the project includes civil engineering works (but is not limited to):

? Establish main site offices, compound, temporary services and access routes.

? Alliance House - Installation of approximately 20m of new demountable defences along the quay side with piled and concrete slab foundation;

? River Alde Quay - Installation of approximately 120m of new demountable defences along the northern quay side with piled and concrete slab foundation;

? Henry Moore Lawn - Improvement to approximately 80metres of earth flood embankment to be constructed in a passive fashion to provide improved flood protection and amenity and access value around the Henry Moore Lawn area terminating at the northeastern edge of the Concert Hall building; and

? Terrace Car Park - Improvement to approximately 100metres of earth flood embankment, incorporating pedestrian access provision, constructed from the River Cafe terrace area, terminating into the southeast car park area.

The works are estimated to cost around £2.3million.

The form of contract will be a NEC4 ECC Option A.

All tender documents are available through the Client or the Client's appointed tender and contract manager Stantec UK Ltd.

Total value (estimated)

- £2,300,000 excluding VAT
- £2,760,000 including VAT

Below the relevant threshold

Submission

Enquiry deadline

13 June 2025, 11:59pm

Tender submission deadline

27 June 2025, 12:00pm

Submission address and any special instructions

Tenders shall be returned to East Suffolk Water Management Board, Pierpoint House, 28 Horsley's Fields, Kings Lynn, Norfolk, PE30 5DD.

One paper copy of tenders, plus one digital copy, shall be submitted in a plain envelope marked 'Flood Cell 06, Snape Maltings Tender' but bearing no markings to identify the Contractor.

The deadline for return of tenders shall be 12:00 noon on 27th June 2025.

Tenders may be submitted electronically

No

Award criteria

The assessment of tenders shall be carried out in two separate evaluations; one based upon price and the other on quality, at a 70/30 ratio scoring split between cost and quality.

Price Assessment

An evaluation of the activity schedule submitted by each tenderer will be made by the Client. The tenderer with the lowest compliant value will be awarded 70 marks and then remaining tenders will be allowed a mark as a percentage of the total against this.

Quality Assessment

Tenderers are to provide responses and information as detailed in the following sections. Each tenderer's quality submissions will be evaluated using marks allocated in line with the evaluation criteria shown in the following sections.

The scoring is based around the tenderers performance with regards to each bullet point which forms each question. The tenderer should answer these directly, as any detail provided which is not specifically asked for within the prompts will not attract marks.

Weighting of each of the questions are shown below.

Question 1 - NEC4 ECC Programme (Weighting 30%).

Question 2 - Delivering the Works (Maximum of 6 Pages, Weighting 10%).

Question 3 - Traffic/Pedestrian Management (Maximum of 3 Pages, Weighting 20%).

Question 4 - Carbon Efficiency & Social Value (Maximum of 2 Pages, Weighting 15%).

Past Experience (Maximum of 5 Pages, Weighting 25%).

Evaluation criteria are explained for these questions in Volume 0 Instruction for Tendering documents available upon request.
