Roll-out of the project will involve working closely with the Circular Economy Team at ECC and officers from each of the participating WCAs in Colchester, Castlepoint and Brentwood.

The Supplier will be provided with each of the WCA's 'round data' to inform pricing of the delivery service and planning for the exact households that will receive the package.

The three WCA areas will need to be targeted simultaneously during the delivery roll-out period.

The contractor will be required to regularly report on progress and arrange delivery of unused stock at the end of the initiative back to ECC.

The contract duration total is expected to be a total of six (6) months including preparation, planning, delivery and reporting.
