Description

Continuous cover software without competition

we are just under half-way through moving between Hypervisors from Vmware to Hyper-V across 2 Data centres with them at the moment. Naturally, this impacts on all our backups and SLA's that ensure to there are risks to our backups and SLA's. To move to another supplier, would introduce delay to the migration process, and potential different methodologies for the backups, This would not be in the best interest of the College due to the potential risks to our backups and Disaster Recovery process.
