## **VII.2) Information about modifications**

### **VII.2.1) Description of the modifications**

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

Increasing the value of the Supply of 11kV & 33kV Pole and Ground Mount Transformers, to £22.7m, across both lots, to provide for continued supplies until the on-going renewal procurement process is concluded.

### **VII.2.2) Reasons for modification**

Need for modification brought about by circumstances which a diligent contracting authority/entity could not foresee.

Description of the circumstances which rendered the modification necessary and explanation of the unforeseen nature of these circumstances:

In order to maintain operations in respect of the Supply of Pole and Ground Mounted Transformers, there is a need to purchase additional units from the current supplier until the end of the original award, until the on-going renewal procurement process is concluded.

Global supply issues added to increases in metal raw material costs, combined with an increased demand than that within the original tender award has led to the need to increase

the original award value.

### **VII.2.3) Increase in price**

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £14,350,000

Total contract value after the modifications

Value excluding VAT: £22,700,000
