II.2.4) Description of the procurement

Lot 3 is for the collection and treatment of waste timber. The Council accepts mixed waste timber including mixed density fibre board (MDF) and high-density fibre board (HDF) at its Recycling Centres. Wooden furnishings are similarly received.

Timber is brought to sites and collected in 35 cubic yard containers.

The Contractor must have a flexible approach to cope with the various demands of the recycling centres throughout the year. The level of service required shall be based on the quantity of timber received, therefore the number of containers that require collection may fluctuate depending on demand and recycling centre.

The Council requires submissions, from Contractors to undertake, transported collection from HRC's located at Castlewellan, Downpatrick and Ballynahinch and transport such filled containers to a designated Waste Transfer Station, licenced for the receipting and processing of waste timber.

Thereafter emptied container to be relocated as directed to one of the Council's HRC sites.

Lot 4: Receipting and Reprocessing of mixed Timber Wastes from HRC sites, located at

Newry, Warrenpoint, Kilkeel, Crossmaglen, Newtownhamilton, Camlough and Hilltown Sites.

Materials are currently brought into the Council recycling centres pre-segregated by members of the public and placed into appropriate waste streams before being sent for further treatment with the emphasis on recycling and diversion.

The Council requires submissions, from Reprocessors to undertake receipting and reprocessing of mixed Timber Wastes from HRC sites, located at Newry, Warrenpoint, Kilkeel, Crossmaglen, Newtownhamilton, Camlough and Hilltown Sites. The wastes are to be delivered by the Council in RO-RO and Builder's type skips.

The Council seeks submissions from Licenced Reprocessors to receive scrap wood wastes received at its Household Recycling Centres. The wastes will be delivered by the Council or nominated Haulage Contractor, on behalf of the Council. The Licenced Reprocessor shall specify the delivery point and shall recycle/recover/treat as much of the waste wood as possible, with residue to be sent for landfill.

Processing Requirement

The Council requires the recycling of as much of the scrap wood received, as possible, for materials delivered to the Contractors specified facility/site.

Requirement is anticipated to reprocess/recycle approximately 1600 tonnes of scrap wood wastes, at part of this Lot.4
