III.1.3)

Place of text to be modified

Technical and professional ability. List and brief description of selection criteria:

Instead of

Text

1. You must provide a minimum of 3 examples of public service contracts over the last 3 years which are identical to the requirements that

Muir Group are requesting.

2. The proposed solution must be integrated to Microsoft Azure Active Directory to provide single sign on (SSO) using pass through credentials.

3. The proposed solution should have the capability to be seamlessly integrated, bi-directionally with Muir Group's core business systems through a published set of APIs.

4. The solution must be accessible from any location, across any device type, and accessed through a web browser and not requiring any locally installed client or plugin for the browser.

5. The proposed solution has a responsive design i.e. it will resize the screens to the type of device (Laptop, Smartphone, Tablet) it is using automatically.

6. The solution must be a true SaaS solution and not a privately hosted solution or an on-premise solution.

7. The solution must be fully integrated, from a single provider and use just one backend database.

8. The supplier of the proposed solution must be certified by the software vendor at the highest available level e.g. Gold, Platinum, etc.
