Airport-related activities

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Fuel Farm Management and Into-Plane Services Tender

II.1.2) Main CPV code

- 63733000 - Aircraft refuelling services

II.1.3) Type of contract

Services

II.1.4) Short description

Belfast City Airport ("BCA") is seeking to appoint an operator to provide services and

operate facilities for the purposes of aviation fuel storage management, into-plane and refuelling operations at George Best Belfast City Airport ("Airport") throughout hours of operation at the Airport. It is currently anticipated that the key role of the appointed party will be to assist BCA in its objective to provide at the Airport: (1) a safe, cost efficient and operationally effective system for receipt, storage and distribution of jet fuel to operating aircraft; (2) at all times ensure that an adequate stock of fuel is available in order to provide uninterrupted service to operating aircraft; (3) full management responsibility for the operation and of the fuel facility, to include: (a) ensuring product quality assurance; (b) providing stock management services; (c) performing into-plane operations in line with all appropriate industry standards; and (d) maintaining a management system for health, safety and environmental matters (including issuing risk assessments where appropriate).

The successful operator will be responsible for the overall management and provision of the services in accordance with principles of open and fair access to all fuel suppliers.

The operator will assist BCA with the management of the operational aspects of the relationship with operating airlines.

The operator may be required to transfer into its employment the staff currently employed by the incumbent operator and in doing so, must abide by all relevant TUPE Regulations.

The operator will utilise BCA's facilities and equipment to provide the Services and operate the fuel facilities, including refuelling bowsers. BCA will retain ownership of the fuelling facilities, associated equipment and infrastructure at BCA.

Throughout the contract, the operator will be expected to: (a) provide and maintain manuals, procedures and processes for the safe and efficient operation of the facility in line with industry standards; and (b) provide, as appropriate, technical support linked to any development of the fuelling facilities, including demand forecasting, and any ongoing maintenance of the facilities.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 34960000 - Airport equipment
- 63730000 - Support services for air transport

II.2.3) Place of performance

NUTS codes

- UKN - Northern Ireland

Main site or place of performance

Belfast City Airport, Sydenham Bypass, Belfast BT3 9JH

II.2.4) Description of the procurement

It is currently anticipated that the key role of the appointed party will be to assist BCA in its objective to provide at the Airport: (1) a safe, cost efficient and operationally effective system for receipt, storage and distribution of jet fuel to operating aircraft; (2) at all times ensure that an adequate stock of fuel is available in order to provide uninterrupted service to operating aircraft; (3) full management responsibility for the operation and of the fuel facility, to include: (a) ensuring product quality assurance; (b) providing stock management services; (c) performing into-plane operations in line with all appropriate industry standards; and (d) maintaining a management system for health, safety and environmental matters (including issuing risk assessments where appropriate).

The successful operator will be responsible for the overall management and provision of the services in accordance with principles of open and fair access to all fuel suppliers.

The operator will assist BCA with the management of the operational aspects of the relationship with operating airlines.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

60

This contract is subject to renewal

Yes

Description of renewals

It is anticipated that the services agreement will, subject to any earlier termination in accordance with its terms (including, without limitation, due to performance by the

Contractor), continue for a period of three (3) years from its commencement. BCA will have the option, at its discretion, to extend the Services Agreement for two further periods of twelve (12) months each. The exercise of the option to extend will be dependent on the terms of the Services Agreement having been complied with in full and further is subject to, without limitation, satisfactory performance of the Contractor, and the estimated value below takes this into account.

II.2.9) Information about the limits on the number of candidates to be invited

Envisaged number of candidates: 3

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: Yes

Description of options

It is anticipated that the services agreement will, subject to any earlier termination in accordance with its terms (including, without limitation, due to performance by the Contractor), continue for a period of three (3) years from its commencement. BCA will have the option, at its discretion, to extend the Services Agreement for two further periods of twelve (12) months each.
