Reference

C33067

Description

The BEEMS (British Energy Estuarine and Marine Studies) programme is funded by NNB GenCo (EDF Energy). Through this programme, Cefas provide authoritative scientific information on the marine and transitional waters in the vicinity of potential nuclear new build (NNB) power stations and require a competent Supplier to deliver the element described below.

Within the BEEMS programme, Cefas routinely manage, review, analyse and report on surveys conducted by third parties to meet regulatory marine environmental monitoring requirements.

Surveys serve a range of purposes within the marine environmental monitoring programmes for Hinkley Point C (HPC) power station, including terrestrial laser scanning surveys.

The work is ongoing in nature, with surveys planned in Spring and Autumn each year. The survey schedule is subject to change in accordance with weather, construction schedules and regulatory requirements. The timings and volume

Total value (estimated)

- £25,000 excluding VAT
- £30,000 including VAT

Below the relevant threshold

Contract dates (estimated)

- 1 April 2026 to 31 December 2028
- Possible extension to 31 December 2030
- 4 years, 9 months

Description of possible extension:

2 x 12 months extension option
