Award of a contract without prior publication of a call for competition in the cases listed below

- The services can be provided only by a particular economic operator for the following reason:
 - protection of exclusive rights, including intellectual property rights

Explanation:

The UK Ministry of Defence (“The Authority”) intends to award a contract with MASS Consultancy UK (“the

Contractor”) for software to maintain the existing simulation package for Network Electronic Warfare

Training Simulators (NEWTS) at a value of £504,000.00. NEWTS trains and educates Aeronautical

Engineering (AE), Electronic and Mechanical Engineering (EME), Nuclear and Marine Engineering (MarE) and

Communication Information systems (CIS) personnel in order to meet Defence requirements.

In accordance with regulation 4 of The Defence and Security Public Contracts (Amendment) (EU Exit)

Regulations 2019 (SI 2019/697) this procurement falls to be regulated under the provisions of the

Defence and Security Public Contracts Regulations 2011 as amended (in particular by SI 2019/697 and SI

2020/1450). Prior publication of a contract notice in the Official Journal of the European Union is no

longer appropriate. It is considered that the award of the contract without prior publication of a contract

notice in the UK e-notification service (in accordance with the relevant legislation) is lawful in accordance

with regulation 16 (1)(a)(ii) on the grounds of technical reasons.

The Authority does not currently have access to technical documentation and knowhow which would allow

a new supplier to deliver the requirement, addressing the interdependencies and managing the risks to

operational safety. A new model could increase the risk of technical incompatibility, reduced quality,

operational ineffectiveness and would increase the resource and training burden
