VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

This modification will continue to support improvements to the delivery of the HCP through increased reach to children, young people and families and will also enable more support to the frontline workforce. Identified key success measures include:

Continuous improvement and/or maintenance of KPIs.

Targeted antenatal contact.

Exception reporting.

Additional Healthy Child contacts as per schedule of interventions.

Contribute to the Speech and Language support pathway in the early years (WELCOMM tool).

Increased Breastfeeding rates.

Support the SEND (Special Educational Needs and Disabilities) agenda.

Expectant and new parents' resilience support.

Increased universal provision for perinatal mental health and post-natal depression.

Development of the School Nurse service offer to support the recommendations of the Emotional Health Needs Assessment, relationships and sex education and sexual health

provision.

VII.2.2) Reasons for modification

Need for modification brought about by circumstances which a diligent contracting authority/entity could not foresee.

Description of the circumstances which rendered the modification necessary and explanation of the unforeseen nature of these circumstances:

"The notice is in accordance with The Health Care Services (Provider Selection Regime) Regulations 2023, No. 1348 - PART 2 - Regulation 13, Modification of contracts and framework agreements during their term and Schedule 12 Notice of contract or framework agreement modification."

the modification is made in response to external factors beyond the control of the Council and the provider including, changes in patient or service user volume, the modification does not render the contract materially different in character.

The partnership agreement is an integral part of Wolverhampton's health delivery and there is no economic benefit to the Council or service delivery benefit to the service user in changing to a different provider, and would cause duplication of cost and avoidable resourcing implications.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £80,314,960

Total contract value after the modifications

Value excluding VAT: £82,039,960
