This procurement will consist of 2 Lots, covering the greater southeast region

1. Domestic Energy Efficiency Supply Chain – Market Intelligence – Lot 1
2. Skills for Energy Efficiency – Lot 2

Contractors are invited to bid for either Lot or both Lots, depending on their relevant skills and experience. Given the interrelated subject matter of the two Lots, contractors should consider applying for both Lots. The overall objectives for this research project are to:

- Access the current capacity of the energy efficiency, low carbon heat and renewable energy sector against the level required for current and forecast delivery

- Assess the level of current skills provision for domestic retrofit against the level required for current and forecast future delivery.
- Assess the level of manufacturing capability, including availability of materials, and the impact to domestic retrofit delivery.
- Determine the key areas requiring intervention
- Build a 5-to-10-year legacy plan for strategy development

II.2.5) Award criteria

Quality criterion - Name: Quality / Weighting: 100

Price - Weighting: 0

II.2.11) Information about options

Options: Yes

Description of options

The Authority is seeking to award a service Contract to a Contractor for both Lot 1 and Lot 2 or to separate contractors for Lot 1 and Lot 2 respectively.

Should Lots 1 and 2 be delivered by separate contractors, the Authority would encourage both parties to consult with each other during the project as subject areas are interrelated.
