II.1.4) Short description

NHS South West London CCG is entering its final phase of transition planning to become an ICP on 1st July 2022. The South West London Integrated Care Partnership (ICP) will bring together organisations and representatives to improve the care, health and wellbeing of the people in South West London.

Over the past the year SWL has undertaken extensive preparatory work to ensure a smooth transition to the new statutory arrangements and has a strong transition plan, governance, approach and team in place to ensure the ICS is created on 1 July 2022. Within our transition plan we have considered the organisational development of the new system and a clear requirement that is critical to the success of the ICS is the collective development of system leaders both within the ICP and within the ICB. We have articulated an overarching development programme comprised of the following components:

1. "Leading SWL ICS" and "Designing Our System Together" are designed for all board level system leaders
2. "Leading Clinical Transformation Together" and "Transforming Together" are enhanced programmes targeted to support clinical leaders and newly formed senior management teams

II.1.5) Estimated total value
