## **Scope**

## **Reference**

TFW1006.00

## **Description**

Tender notice for Mobile CET at Barry Depot - The CET machines will be stored undercover within the contained area and also charged withing the contained area.

The underfoot area of the contained section is a concrete hardstanding able to withstand the movement of a mobile CET tanker.

Lighting levels are deemed sufficient for CET tanker operations.

To facilitate the CET operation 3 and 4 car 756 rolling stock, it is proposed that 2 x mobile CET tankers are required.

Stadler 756 CET tank volume is 1 tank of 300 litres for both 3 and 4 car trains, with 1 toilet module per train. Tanking water will be provided on site with existing hoses and reels. No potable water required on 756 trains. Mobile CET machine should be around double the

size of the 756 tank volume.

Please see specification for all associated hoses and connections. All connectors should also be of the non-drip variety.

Mobile CET machines are required for service by 10th May 2026.
