T/JA137/25

Description

The MRF currently operate what is locally referred to as a “fractured LIMS”, which consists of several tools that take the place of different tasks of a LIMS, but don’t fully interconnect or interact with each other. This means manual transfer of information, duplication of information across systems, and possibility of inaccuracy to be created. The requirement is for a replacement LIMS system are captured below under 6 key areas (customer management, document tracking, reporting, sample tracking, equipment and compliance). Each of these points is a requirement for the replacement LIMS system, unless it is marked as optional.
