Section II: Object

II.1) Scope of the procurement

II.1.1) Title

How can technology help manufacturing businesses decarbonise while building resilience and strengthening competitive advantage

II.1.2) Main CPV code

- 72000000 - IT services: consulting, software development, Internet and support

II.1.3) Type of contract

Services

II.1.4) Short description

Manufacturing is a key sector in Scotland, providing business research and development, and high quality employment (approximately 170,000 people). It also needs to play a key role in helping Scotland work towards Net Zero 2045 but at the moment it is difficult for manufacturers to understand their environmental impact and the make the changes required.

Our Challenge therefore is to help manufacturers assess their environmental footprint; for instance quickly estimating the carbon impact of their operations.

Please visit our website for information on CivTech and how to get involved.
