Description

Forensic Science Northern Ireland (FSNI) is an Agency within the Department of Justice, responsible for the provision of impartial scientific advice and support, to enhance the Criminal Justice System. FSNI has a Memorandum of Understanding (MoU) with the Police Service of Northern Ireland (PSNI) to manage the return of the PSNI's speed metering equipment to the manufacturer for repair and calibration. FSNI do not procure the handheld lasers as this activity is undertaken by the PSNI. This DAC will cover the costs associated with the repair and calibration of these hand held speed metering devices and relates only to the service calibration and repair by the manufacturer.

This will be a 3 year DAC to enable the PSNI to test the market for alternative devices to the current solution. FSNI will use the length of this DAC to transfer responsibility for the calibration, servicing and repair of the devices to the PSNI. This will allow sufficient time for the PSNI to establish a new contract directly with the manufacturer, or test the market

for a new hand held speed metering device to fully meet the needs of Roads Policing.

Contract 1. FSNI Service Calibration, Repair and Consumables for Laser Equipment

Supplier

- [Withheld Section 94 supplier](#)

Contract value

- £177,000 excluding VAT
- £2,124,000 including VAT

Other information

Description of risks to contract performance

Failure to have calibration, servicing and repair of existing speed metering devices would have a detrimental effect on the ability of PSNI Roads Policing to meet their core public safety duty of maintaining safe roads, free from harm, in Northern Ireland.

Conflicts assessment prepared/revised

Yes

Procedure

Procedure type

Direct award

Direct award justification

Single supplier - technical reasons

Direct award conditions and permissible justifications are set out under Chapter 3 and Schedule 5 of the Procurement Act. There is justification for a direct award on the grounds set out under paragraph 5 of Schedule 5 where the following conditions are met in relation to the public contract—

- (a) due to a particular supplier having intellectual property rights or other exclusive rights, only that supplier can supply the goods, services or works required, and
- (b) there are no reasonable alternatives to those goods, services or works

The DAC can also rely on a derogation in this case to comply with Home Office Approval, the equipment can only be calibrated and repaired by the manufacturer, the manufacturer's appointed agent or a suitable qualified technician offering appropriate evidence of technical and professional competence. There is only one appointed agent for the calibration, service and repair of the PSNI's speed metering equipment in the UK.
