II.2.4) Description of the procurement

On 17th April 2023 The Institution of Structural Engineers published the Document "Reinforced Autoclaved Aerated Concrete (RAAC) Investigation and Assessment – Further Guidance" which amongst other things, altered the recommended minimum end bearing for RAAC Roof Panels from the previous standard of 45mm to the new standard of 75mm.

Following a structural survey, the presence of RAAC was identified at a number of domestic properties, both common entrance flats and low-rise properties. As such a

programme of works is being developed to replace all RAAC roof panels in WLC owned domestic properties.

This contract will target properties in selected streets in the Bathgate, Broxburn, Linlithgow, and Livingston areas of West Lothian. The streets containing the houses in question are a mixture of West Lothian Council owned houses, houses owned by other Registered Social Landlords, as well as privately owned and/or rented houses. All the houses are ex local authority or Development Corporation houses. In the majority
