Pipeline

Land Management Framework 2026-2030

Natural Resources Wales

UK1: Pipeline notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-016103

Procurement identifier (OCID): ocds-h6vhtk-05054e

Published 22 April 2025, 7:38am

Scope

Description

The purpose of this framework is to provide All Wales land management teams with the resource to manage the general maintenance programme of work predominantly within NRW managed land (local forestry areas, recreational areas, visitor centres and NNR's). This framework could also be used for NRW funded projects if appropriate. This is for low value, planned and reactive maintenance work that is being carried out by different teams at their different locations throughout Wales. The contractors will be required to carry out a range of activities in different areas of the NRW estate, and possibly other non-NRW land if required. These can include forestry areas, recreational areas, Visitor centres, National Nature Reserves, and land managed by NRW.
