The Contracting Authority will incorporate a minimum 10 calendar day standstill period (or 15 days where

nonelectronic or fax methods are used) at the point that an award decision notice is communicated to tenderers.

The award decision process will specify the criteria for the award of the

contract/framework agreement, the

reasons for the decision, including the characteristics and relative advantages, the name and score of the successful tender(s), and will specify when the standstill period is expected to end or the date before which

the Contracting Authority will not conclude the contract. If an appeal regarding the award of a contract has not

been successfully resolved, the Public Contracts Regulations 2015 provide for aggrieved parties who have been

harmed or are at risk of a breach of the rules to take action in the High Court (England, Wales and Northern

Ireland). Any such action must be brought promptly (generally within 3 months). The Court may order the setting

aside of the award decision or may order the Contracting Authority to amend any document and may award

damages. If an agreement has been entered into the Court may make a declaration of ineffectiveness or may

order that the duration of any relevant specific contract be shortened and additionally may award damages.

The time limit for seeking such a declaration is generally 30 days from notification of the award (either by award

decision notification or contract award notice depending upon the circumstances) or otherwise 6 months
