Buyer's address

<http://www.ypo.co.uk/>

**I.2) Information about joint procurement**

The contract is awarded by a central purchasing body

**I.4) Type of the contracting authority**

Body governed by public law

**I.5) Main activity**

General public services

---

## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

YPO - 001100 Supply of Electricity and Ancillary Services

Reference number

001100

#### **II.1.2) Main CPV code**

- 09310000 - Electricity

#### **II.1.3) Type of contract**

Supplies

#### **II.1.4) Short description**

YPO are looking for a Supplier to be appointed onto a Framework Agreement for the supply

of electricity, as well as related ancillary services, primarily for use in the local authority sector, education sector, emergency services sector and any of YPO's permissible users.

This Framework is designed to meet the needs of both YPO and Other Contracting

Authorities by establishing an agreement where the end customer will enter into an

electricity supply agreement with the Supplier and the Supplier will supply electricity, as well

as any ancillary services that the customer requires, direct to the end customer. Any

potential tenderers must have a commercial supply licence and listed on the OFGEM

#### **II.1.6) Information about lots**

This contract is divided into lots: No

#### **II.1.7) Total value of the procurement (excluding VAT)**

Value excluding VAT: £2,600,000,000

## **II.2) Description**

### **II.2.2) Additional CPV code(s)**

- 09310000 - Electricity
- 31682000 - Electricity supplies
- 71314000 - Energy and related services

### **II.2.3) Place of performance**

NUTS codes

- UK - United Kingdom

### **II.2.4) Description of the procurement**

The Framework Agreement shall cover the supply of Electricity, as well as the provision of related ancillary products and services. These ancillary products and services may include

but are not limited to the following listed below. Please note that the Supplier must be capable and be able to deliver the ones highlighted mandatory.

- Energy Storage
- Solar- Design and Install
- Smart Cities
- Demand Side Response/ Demand Side Flexibility
- Heat Pumps
- Intelligent Metering
- Carbon Offsetting
- Feasibility Studies
- Consultancy

- Automated Meter Reading (AMR) Metering Services (Mandatory Requirement)
- Electric Vehicle Charging Points
- Meter Operator (MOP) Metering Services (Mandatory Requirement)
- Data Aggregation (DA) and Data Collection (DC) Services (Mandatory Requirement)
- Power Purchase Agreements (PPA's) (Mandatory Requirement)
- Carbon Reduction Reporting
- Energy Management Tools
- Energy Efficiency Surveys
- Display energy certificates
- Online Energy Management Portal

Any potential tenderers must have a commercial supply licence and listed on the OFGEM approved supplier list.

#### **II.2.5) Award criteria**

Quality criterion - Name: Trading Support / Weighting: 10%

Quality criterion - Name: Social Value/Sustainability / Weighting: 20%

Quality criterion - Name: Customer Onboarding, Exiting and Billing / Weighting: 15%

Quality criterion - Name: Customer Service, Customer Transition and Online Portal / Weighting: 25%

Price - Weighting: 30%

#### **II.2.11) Information about options**

Options: Yes

Description of options

The Framework Agreement will cover the period from 1st April 2023 to 31st March 2027

with

two options to extend for an additional 24 months. The first decision to extend the contract period will be taken by January 2025 and will be dependent on satisfactory completion of all

aspects of the contract to date, the current market conditions for this category and YPO's contracting structures. The maximum contract period will therefore be 8 years, from 1st April

2023 to 31st March 2031 (subject to an annual review, incorporating management fee negotiations and KPI performance).

The justification for a 4+2+2 (possible 8 years in total) length Framework, is due to the complexity of the proposed Framework Agreement, taking account of the national procurement policy around tackling climate change and given the nature of the service/product, to ensure customers can gain the maximum benefits from using the Framework without compromising the potential for open competition in the wider market.

Wholesale electricity prices are currently at the highest ever and having a longer Framework,

will allow for YPO to operate a much longer term purchasing strategy without the complexities of sleeving to another provider. A longer term purchasing strategy will mitigate

risk for our customers and YPO will be able to provide them with longer term budget certainty in a volatile market.

We have also considered that the majority of our customer have declared climate emergencies and have net zero targets of 2030 and beyond and the UK Government itself has a legally-binding target to reduce greenhouse gas emissions to net zero by 2050. Having

a longer term partnership with an electricity Supplier in a framework format will support our

customers on this journey, as one of the biggest contributors to carbon emissions is energy

consumption. The collaborative approach with a Supplier for a longer period, will allow for support with reducing consumption/becoming more efficient, setting up effective power purchase agreements and potential for additional support on social value.

### **II.2.13) Information about European Union Funds**

The procurement is related to a project and/or programme financed by European Union funds: No

---

## **Section IV. Procedure**

### **IV.1) Description**

#### **IV.1.1) Type of procedure**

Open procedure

#### **IV.1.3) Information about a framework agreement or a dynamic purchasing system**

The procurement involves the establishment of a framework agreement

#### **IV.1.8) Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: Yes

### **IV.2) Administrative information**

#### **IV.2.1) Previous publication concerning this procedure**

Notice number: [2022/S 000-005299](#)

---

## **Section V. Award of contract**

**Contract No**

1

## **Title**

YPO - 001100 Supply of Electricity and Ancillary Services

A contract/lot is awarded: Yes

## **V.2) Award of contract**

### **V.2.1) Date of conclusion of the contract**

26 May 2022

### **V.2.2) Information about tenders**

Number of tenders received: 4

The contract has been awarded to a group of economic operators: No

### **V.2.3) Name and address of the contractor**

Npower Commercial Gas Limited

Coventry

Country

United Kingdom

NUTS code

- UKG33 - Coventry

The contractor is an SME

No

### **V.2.4) Information on value of contract/lot (excluding VAT)**

Total value of the contract/lot: £2,600,000,000

---

## **Section VI. Complementary information**

### **VI.3) Additional information**

YPO are purchasing on the behalf of other contracting authorities. Please see the below link

for details: <https://www.ypo.co.uk/about/customers/missible-users> .

YPO will incorporate a standstill period at the point of notification of the award of the contract

is provided to all bidders. The standstill period will be for a minimum of 10 calendar days, and

provides time for unsuccessful tenderers to challenge the award decision before the

contract is entered into. The Public Contracts Regulations 2015 provide for aggrieved

parties who have been harmed or are at risk of harm by a breach of the rules to take action in

the High Court (England, Wales and Northern Ireland).

### **VI.4) Procedures for review**

#### **VI.4.1) Review body**

High Court of England and Wales

London

Country

United Kingdom
