With on-site office space available, the service involves delivering flexible, outcomes focused support to 26 service users across four properties (between 5-10 hours a week) in the Hornchurch and Romford areas of Havering. In addition, the service will work closely with the two existing property landlords and the wider community services and resources to support the service users.

This service will be designed to offer support to service users for a medium to long term basis. Havering Council recognises that service users progress in developing the necessary skills will vary and therefore whilst some service users may require support at this service for a relatively short period of time (e.g. six to twelve months) whilst some service users may require longer (i.e. up to 3 years).

The service will be expected to deliver on numerous individual outcomes aimed at preventing the need for statutory care and support services and is likely to include such elements as tenancy sustainment, developing daily living skills, help with budgeting and

maintaining health and well-being.

There will be housing management responsibilities and associated costs with one of the two property landlords. Also, following the tender, the contract award offer will be subject to the Provider successfully completing a vetting process and signing an agreement with this property landlord (further information will be available as part of the published tender documents).
