I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Other activity

Nuclear Transport

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Feasibility, Fabrication and Delivery of Adapter Plates

II.1.2) Main CPV code

- 45255400 - Fabrication work

II.1.3) Type of contract

Works

II.1.4) Short description

NTS is currently seeking to understand the capabilities of the market for the feasibility, fabrication, and delivery of two types of adaptor plates. There is a possibility that 12 plates (6 per type will be required). NTS may also require these to be delivered to Barrow-in-Furness and installed by the supplier. If necessary, the construction work can be fully/partially carried out on the quay or onboard the vessel in the cargo space where they will be used for operations.

This Request for Information seeks to understand the capability and capacity of the market for manufacturing these adapter plates, to further inform strategy development for future procurement. Responses received to this RFI will be used to inform NTS' understanding of the market and allow them to plan the future opportunity allowing sufficient time for manufacture to meet project deadlines.

Suppliers who register interest in this RFI via the Atamis platform will be to access technical drawings via the supplier documents folder; please refer to these documents for more detail.
