Contract

## **UKRI-2814 Optical System Design and Analysis Services**

UK Research and Innovation

F03: Contract award notice

Notice identifier: 2024/S 000-016208

Procurement identifier (OCID): ocds-h6vhtk-03a2ee

Published 22 May 2024, 4:05pm

### **Section I: Contracting authority**

#### **I.1) Name and addresses**

UK Research and Innovation

Polaris House, North Star Avenue

Swindon

SN2 2FL

#### **Email**

[STFCprocurement@ukri.org](mailto:STFCprocurement@ukri.org)

#### **Telephone**

+44 1793442000

#### **Country**

United Kingdom

#### **Region code**

UKK14 - Swindon

**Internet address(es)**

Main address

<http://www.ukri.org>

**I.2) Information about joint procurement**

The contract is awarded by a central purchasing body

**I.4) Type of the contracting authority**

Body governed by public law

**I.5) Main activity**

Other activity

Government research and innovation

---

**Section II: Object**

**II.1) Scope of the procurement**

**II.1.1) Title**

UKRI-2814 Optical System Design and Analysis Services

Reference number

UKRI-2814

**II.1.2) Main CPV code**

- 71320000 - Engineering design services

**II.1.3) Type of contract**

Services

**II.1.4) Short description**

The Central Laser Facility (CLF) at the STFC Rutherford Appleton Laboratory is one of the world's leading laser facilities providing scientists from the UK and Europe with an unparalleled range of state of the art technology. CLF is a partnership between its staff and the large number of members of UK and European universities who use the specialised laser equipment provided to carry out a broad range of experiments in physics, chemistry and biology. The Supplier(s) will provide engineering resources, to undertake design and development work. For design activities, where appropriate, the Supplier(s) may also be asked to provide risk assessments and method statements supporting their designs through to installation and commissioning. These works, where appropriate, will be undertaken within the Construction Design and Management regulations under which the duty of "designer" will be fulfilled by the Supplier.

#### **II.1.6) Information about lots**

This contract is divided into lots: Yes

#### **II.1.7) Total value of the procurement (excluding VAT)**

Value excluding VAT: £4,000,000

### **II.2) Description**

#### **II.2.1) Title**

Lot 1 - Electrical Building Services

Lot No

1

#### **II.2.2) Additional CPV code(s)**

- 71320000 - Engineering design services

#### **II.2.3) Place of performance**

NUTS codes

- UKJ14 - Oxfordshire

Main site or place of performance

Oxfordshire

## **II.2.4) Description of the procurement**

A Maximum of one supplier will be awarded a place on this Lot within this framework. The maximum value for the requirement, across all Lots is: £4,000,000.00 GBP excl VAT across the potential 4 year duration. Please note that there is no guaranteed spend or volume of orders against each Lot. Each Contract will be on a call-off basis. When the UKRI have a requirement to place a call-off order under a specific Lot, they shall request a quote from the awarded Supplier of the relevant Lot. UKRI shall review the quote and may place an individual order, however, UKRI reserve the right not to proceed to order at their discretion. Lot 1 - Electrical building services Activities required; Building services electrical single and 3 phase low voltage distribution. Cable routing and support Cat 6 cabling and network design Compliance and Understanding of BS 7671 Key Software - AutoCAD Electrical, EPLAN, Vault Deliverables: 2D Autocad drawings (in native format so compatible with Vault database). Cable routing, type and termination to electrical panels Cable Identification (ID), Bill of Materials (BOM) for Cable support and containment Please see the tender documentation for the full requirement. To access the documents and Bid for this specific Lot please visit; <https://ukri.delta-esourcing.com/respond/8P4V6ZR748> Please note that there are separate links in order to bid for the different Lots on this framework. Bidders can bid for as many Lots as they wish.

## **II.2.5) Award criteria**

Price

## **II.2.11) Information about options**

Options: No

## **II.2.13) Information about European Union Funds**

The procurement is related to a project and/or programme financed by European Union funds: No

## **II.2) Description**

### **II.2.1) Title**

Lot 2 Electrical Interlocks - Laser Systems

Lot No

2

### **II.2.2) Additional CPV code(s)**

- 71300000 - Engineering services

### **II.2.3) Place of performance**

NUTS codes

- UKJ14 - Oxfordshire

Main site or place of performance

Oxfordshire

### **II.2.4) Description of the procurement**

A Maximum of one supplier will be awarded a place on this Lot within this framework. The maximum value for the requirement, across all Lots is: £4,000,000.00 GBP excl VAT across the potential 4 year duration. Please note that there is no guaranteed spend or volume of orders against each Lot. Each Contract will be on a call-off basis. When the UKRI have a requirement to place a call-off order under a specific Lot, they shall request a quote from the awarded Supplier of the relevant Lot. UKRI shall review the quote and may place an individual order, however, UKRI reserve the right not to proceed to order at their discretion.

Lot 2 - Electrical Interlocks - Laser Systems

Activities required:

Interlock systems to BS EN 61508 and BS EN 61511

Pilz Safety PLC Systems

Compliance and Understanding of BS 7671

Key Software - Pilz Software PAS4000, PASvisu

Deliverables:

2D Autocad drawings (in native format so compatible with Vault database).

Safety Assessments including but not limited to Safety Integrity Level (SIL) rating

Software (in native format)

Please see the tender documentation for the full requirement. To access the documents and Bid for this specific Lot please visit; <https://ukri.delta->

[esourcing.com/respond/54ZBEPB55E](https://esourcing.com/respond/54ZBEPB55E)

Please note that there are separate links in order to bid for the different Lots on this framework. Bidders can bid for as many Lots as they wish.

### **II.2.5) Award criteria**

Price

### **II.2.11) Information about options**

Options: No

### **II.2.13) Information about European Union Funds**

The procurement is related to a project and/or programme financed by European Union funds: No

## **II.2) Description**

### **II.2.1) Title**

Lot 3 Electrical Service - High Voltage Systems

Lot No

3

### **II.2.2) Additional CPV code(s)**

- 71300000 - Engineering services

### **II.2.3) Place of performance**

NUTS codes

- UKJ14 - Oxfordshire

Main site or place of performance

Oxfordshire

### **II.2.4) Description of the procurement**

A Maximum of one supplier will be awarded a place on this Lot within this framework. The maximum value for the requirement, across all Lots is: £4,000,000.00 GBP excl VAT

across the potential 4 year duration. Please note that there is no guaranteed spend or volume of orders against each Lot. Each Contract will be on a call-off basis. When the UKRI have a requirement to place a call-off order under a specific Lot, they shall request a quote from the awarded Supplier of the relevant Lot. UKRI shall review the quote and may place an individual order, however, UKRI reserve the right not to proceed to order at their discretion.

### Lot 3 - Electrical Service - High Voltage Systems

#### Activities Required:

High voltage DC pulsed power supply systems (capacitor based) up to 22kV

Electromagnet power supplies

Compliance and Understanding of BS 7671

Key Software

AutoCAD Electrical, EPLAN, Vault

#### Deliverables:

2D Autocad drawings (in native format so compatible with Vault database).

Safety Assessments and Design Mitigations

Requirements and Specification Documentation

Please see the tender documentation for the full requirement. To access the documents and Bid for this specific Lot please visit; <https://ukri.delta-sourcing.com/respond/8SR2RDTX68>

Please note that there are separate links in order to bid for the different Lots on this framework. Bidders can bid for as many Lots as they wish.

### **II.2.5) Award criteria**

### **II.2.1) Title**

Lot 4 Electrical Service - PLC

Lot No

4

### **II.2.2) Additional CPV code(s)**

- 71300000 - Engineering services

### **II.2.3) Place of performance**

NUTS codes

- UKJ14 - Oxfordshire

Main site or place of performance

Oxfordshire

### **II.2.4) Description of the procurement**

A Maximum of one supplier will be awarded a place on this Lot within this framework. The maximum value for the requirement, across all Lots is: £4,000,000.00 GBP excl VAT across the potential 4 year duration. Please note that there is no guaranteed spend or volume of orders against each Lot. Each Contract will be on a call-off basis. When the UKRI have a requirement to place a call-off order under a specific Lot, they shall request a quote from the awarded Supplier of the relevant Lot. UKRI shall review the quote and may place an individual order, however, UKRI reserve the right not to proceed to order at their discretion.

Lot 4 - Electrical Service - PLC

Activities required:

SCADA

PLCs, Specifically Siemens S7 series

Key Software

Autosave, TIA Portal, Vault

Deliverables:

2D Autocad drawings (in native format so compatible with Vault database).

PLC code to IEC 61131-3

Please see the tender documentation for the full requirement. To access the documents and Bid for this specific Lot please visit; <https://ukri.delta-esourcing.com/respond/XV7W3ST2FR>

Please note that there are separate links in order to bid for the different Lots on this framework. Bidders can bid for as many Lots as they wish.

The procurement is related to a project and/or programme financed by European Union funds: No

## **II.2) Description**

### **II.2.1) Title**

Lot 5 Analysis

Lot No

5

### **II.2.2) Additional CPV code(s)**

- 71300000 - Engineering services

### **II.2.3) Place of performance**

NUTS codes

- UKJ14 - Oxfordshire

Main site or place of performance

Oxfordshire

### **II.2.4) Description of the procurement**

A Maximum of one supplier will be awarded a place on this Lot within this framework. The maximum value for the requirement, across all Lots is: £4,000,000.00 GBP excl VAT across the potential 4 year duration. Please note that there is no guaranteed spend or volume of orders against each Lot. Each Contract will be on a call-off basis. When the UKRI have a requirement to place a call-off order under a specific Lot, they shall request a quote from the awarded Supplier of the relevant Lot. UKRI shall review the quote and may place an individual order, however, UKRI reserve the right not to proceed to order at their discretion.

Lot 5 - Analysis

Activities required

Computational Fluid Dynamics Modelling

Finite Element Analysis - Heat Transfer Modelling

Dynamic Modal Analysis

Finite Element Analysis - Static Structural

Design by Analysis in accordance with Pressure Equipment Directive PED (and BS:EN13345)

General Finite Element Analysis

Design of passive and active cooling systems

Design of LN2 cryostat cooling systems

Key Software

Ansys

Deliverables:

Design and Analysis Reports and Presentations

Ansys models (including all boundary condition, mesh and result data)

Supporting Empirical calculations

Design recommendations (provided to CLF for modelling and detail design)

Process & Instrumentation Diagrams

3D CAD models in step format

2D General Assembly and manufacturing drawings

Please see the tender documentation for the full requirement. To access the documents and Bid for this specific Lot please visit; <https://ukri.delta-sourcing.com/respond/347NU69464>

Please note that there are separate links in order to bid for the different Lots on this framework. Bidders can bid for as many Lots as they wish.

Lot 6 Mechanical Building Services - Water

Lot No

6

**II.2.2) Additional CPV code(s)**

- 71300000 - Engineering services

**II.2.3) Place of performance**

NUTS codes

- UKJ14 - Oxfordshire

Main site or place of performance

Oxfordshire

**II.2.4) Description of the procurement**

A Maximum of one supplier will be awarded a place on this Lot within this framework. The maximum value for the requirement, across all Lots is: £4,000,000.00 GBP excl VAT across the potential 4 year duration. Please note that there is no guaranteed spend or volume of orders against each Lot. Each Contract will be on a call-off basis. When the UKRI have a requirement to place a call-off order under a specific Lot, they shall request a quote from the awarded Supplier of the relevant Lot. UKRI shall review the quote and may place an individual order, however, UKRI reserve the right not to proceed to order at their discretion.

Lot 6 - Mechanical Building Services - Water

Activities required:

Building services engineering for water systems

Chilled water systems, primary and secondary

Key Software

Preferably Solid Edge linked to Teamcentre

Deliverables:

3D CAD models preferably in native Solid Edge format (to be compatible with assemblies and Teamcentre database). A concession may be made for this Lot to software more commonly used in industry (e.g. Revit) as long as data can be transferred in solid body form to step file to be added to the Solid Edge models.

Installation Drawings

Installation Instructions, including Risk Assessments and Method Statements (RAMS)

Integration with existing building water service management system

Flow and thermal calculations

Safety Assessments

Please see the tender documentation for the full requirement. To access the documents and Bid for this specific Lot please visit; <https://ukri.delta-sourcing.com/respond/8336H6T9U2>

Please note that there are separate links in order to bid for the different Lots on this framework. Bidders can bid for as many Lots as they wish.

UKRI shall review the quote and may place an individual order, however, UKRI reserve the right not to proceed to order at their discretion.

Lot 7 - Mechanical Building Services - Gas

Activities required:

Compressed air systems

High pressure gas delivery systems to 350bar(g)

Compressed nitrogen gas systems

Exhaust Systems

Compressed oxygen delivery systems

Key Software

Preferably Solid Edge linked to Teamcentre

Deliverables:

3D CAD models preferably in native Solid Edge format (to be compatible with assemblies and Teamcentre database). A concession may be made for this Lot to software more commonly used in industry (e.g. Revit) as long as data can be transferred in solid body form to step file to be added to the Solid Edge models.

Installation Drawings

Installation and Commissioning Instructions, including Risk Assessments and Method Statements (RAMS)

Pressure and Flow Calculations

Safety Assessments and compliance with Pressure System Safety Regulations (PSSR).

Please see the tender documentation for the full requirement. To access the documents and Bid for this specific Lot please visit; <https://ukri.delta-esourcing.com/respond/8TS2E327GE>

UKRI shall review the quote and may place an individual order, however, UKRI reserve the right not to proceed to order at their discretion.

Lot 8 - Mechanical Building Services - Vacuum

Activities required:

Roughing vacuum systems (comprising of CF seals)

High vacuum pipework systems (turbo, backing systems and pipework)

Key Software

Preferably Solid Edge linked to Teamcentre

Deliverables:

3D CAD models in native Solid Edge format (to be compatible with assemblies and Teamcentre database)

Manufacturing Drawings in native Solid Edge format (to be compatible with assemblies and Teamcentre database)

Fabrication Drawings in native Solid Edge format (to be compatible with assemblies and Teamcentre database)

Manufacturing specifications (to CLF template)

Please see the tender documentation for the full requirement. To access the documents and Bid for this specific Lot please visit; <https://ukri.delta-sourcing.com/respond/JAPQ962377>

Oxfordshire

### **II.2.4) Description of the procurement**

A Maximum of one supplier will be awarded a place on this Lot within this framework. The maximum value for the requirement, across all Lots is: £4,000,000.00 GBP excl VAT across the potential 4 year duration. Please note that there is no guaranteed spend or volume of orders against each Lot. Each Contract will be on a call-off basis. When the UKRI have a requirement to place a call-off order under a specific Lot, they shall request a quote from the awarded Supplier of the relevant Lot. UKRI shall review the quote and may place an individual order, however, UKRI reserve the right not to proceed to order at their discretion.

#### Lot 9 - Ballistic shield and chambers

##### Activities required:

Analysis to determine stored energy in pressure systems and potential energy of fragments/windows in pressure boundary

Analysis to determine minimum shield thickness

Analysis to determine potential acoustic hazard presented by release of stored energy

##### Key Software

Ansys, empirical calculation, other

##### Deliverables:

Design and Analysis Reports and Presentations

Ansys models (including all boundary conditions, mesh and result data)

Design recommendations (provided to CLF for modelling and detail design)

Please see the tender documentation for the full requirement. To access the documents and Bid for this specific Lot please visit; <https://ukri.delta-esourcing.com/respond/456J47CN6C>

Lot 10 - Data Acquisition Systems

We require development of data management and control systems for high throughput data (GB/s) generated by high power lasers running at 10Hz. For this, we need:

Data Acquisition Systems (DAQ) for high throughput scientific data (software/platforms; EPICS, AreaDetector, Apache Kafka, Python, FlatBuffers)

Data Management Software Development for high data volumes (Apache Kafka, Python, HDF5, NeXus)

Experiment Specification and Orchestration system (BlueSky)

Data visualisation systems (Javascript, React framework, Grafana or similar data visualisation tool)

Experiment control front-end/GUI (React, or Blazor)

Deliverables:

Software program that meets the requirement specification

User guide and other documentation

Code quality and maintainability

Testing (as required)

Please see the tender documentation for the full requirement. To access the documents and Bid for this specific Lot please visit; <https://ukri.delta-sourcing.com/respond/G6P6M778C4>

Please note that there are separate links in order to bid for the different Lots on this framework. Bidders can bid for as many Lots as they wish.

Lot 11 - Software Training

Training topics required:

Experimental Physics and Industrial Control System (EPICS)

Agile Software Development

Apache Kafka

C# - Dotnet Blazor

Deliverables:

On-site training sessions

Virtual training) sessions

Training Materials and Documentation

Please see the tender documentation for the full requirement. To access the documents and Bid for this specific Lot please visit; <https://ukri.delta-sourcing.com/respond/J9R89534M2>
