Rotherham Borough Council's Delivery Teams carry out Highway maintenance and safety improvements throughout the Borough. To carry out these works, we are seeking traffic management providers to work alongside our staff to provide traffic and pedestrian management in order that all works are carried out safely and effectively on the highway.

Rotherham Council has a number of planned road works and maintenance schemes to improve our highway network for all road users. On average the Council delivers the following:

The contract is to supply, install, maintain and remove traffic management systems which are required for works to take place on the highway throughout the Rotherham borough.
