Description

NHS Derby & Derbyshire Integrated Care Board (ICB) through the delivery programme of 'Enhanced Health in Care Homes', have commissioned the Council's Carelink service to host a dedicated care homes falls support team, to work with care providers to improve competence in supporting residents who have fallen. This also includes the provision of specialist lifting equipment (the Mangar lifting cushion).

The funding is being provided by NHS ICB. This is to support a new Falls Support Service project funded by NHS working in partnership with DCC Carelink to deliver the service. The aim is to reduce the number of hospital convenances and admissions to hospital.

Direct Award is for the purchase of Mangar Lifting Equipment, and training of employees on how to use the cushions and also 3 years ongoing maintenance of the equipment.

Value is £282,720.00.

Contract 1. For the provision of Mangar Lifting Equipment and the subsequent training in use and maintenance of.

Direct award justification

Single supplier - technical reasons

NHS Derby & Derbyshire Integrated Care Board (ICB) through the delivery programme of 'Enhanced Health in Care Homes', have commissioned the Council's Carelink service to host a dedicated care homes falls support team, to work with care providers to improve competence in supporting residents who have fallen. This also includes the provision of specialist lifting equipment (the Mangar lifting cushion).

The ICB have funded both the team and the equipment, however the budget has been passed to Derby City Council to manage the whole process. There is a formal arrangement between ICB and Derby City Council to procure equipment through Derby City Council's procurement channels to ensure direct control over stock levels and purchasing volumes throughout the course of the 12-month project. The agreement in place between ICB and Derby City Council specifies the named supplier of the lifting equipment, which is Winncare.

WinnCare UK are the manufacturer of the Mangar lifting cushion and rather than sourcing it from an individual supplier by procuring through an open procurement process we believe it is more cost-effective to procure it directly from WinnCare. In addition, WinnCare are able to offer bespoke training and maintenance of the equipment that other suppliers do not. WinnCare themselves have supported the development of this care homes falls programme of work and are a partner to the NHS.

The NHS-led and multiagency Enhanced Health in Care Homes programme has been awarded £0.565m of non-recurrent funding part of which will be utilised to fund this contract.
