II.2.4) Description of the procurement

FLS has an ongoing requirement for professional Valuation Services. The specific services pertaining to this Lot, includes:

- To agree valuation methodology annually with FLS staff and auditors.

- To provide compliant valuation report encompassing the valuations below to the nominated FLS Contract Manager and other FLS staff as requested, engaging with FLS staff, undertaking site visits throughout Scotland as required by the agreed methodology and meeting milestones agreed at the beginning each annual valuation.

- Annual Forest and Land Valuations

- The valuation of productive woodland and solum, having regard to management data provided by FLS (growing timber is categorised as a biological asset for agricultural produce per IAS 41). These valuations are currently grouped as a) broadleaves b) conifers and c) solum and reported as GBP/ha for each group, separately stated across the 5 FLS Regional areas. (FLS calculates actual values for the Annual Financial Statements by applying the given GBP/ha rate to area figures per FLS end of year data.)

- Site visits to around 20 sample forest blocks across Scotland to check accuracy of forest management data held in FLS systems

- Valuation of remainder of land in line with FLS' management data. This is grouped according to various land use classifications and the Service Provider will be required to determine the average values (GBP/ha), currently in the following headings: Specialist Crop, Subsidiary Plantable Crop, Subsidiary Unplantable Crop, Agricultural Land and Car Parks.

- Annual Lease Valuations

- The valuation of renewable energy leases for wind, hydro and battery schemes based on data provided by FLS.

- The valuation of a variety of leases for general commercial activities.

- Expressly excluded from this Lot is the valuation of telecommunication masts and mineral leases that are valued by others.

- Annual Building Valuations

- The valuation of a wide range of buildings. The buildings are grouped into five FLS Regional areas. One area will be considered in detail each year, with an indexation applied to the buildings in the other four Regions. The Region being reviewed will be rotated each year, ensuring a full revaluation of every building every five years.

- Site visits and inspections are expected to be carried out as required.

- Providing valuation expertise, advice, support and/or guidance in relation to methodology and values of land, buildings or others associated assets as requested by

FLS, their auditors or other parties on behalf of FLS from time to time. This will include attending meetings with FLS staff, auditors and others as relevant.

Facilitating the transition of valuation services to any successor Service Provider, this may include transfer of valuation documents.

Retaining all documents in secure storage for a period of 7 years. (As the valuation is for financial accounting purposes, all documents relating to the contract and its performance may be subject to audit review and must be kept for 7 years.)

II.2.4) Description of the procurement

Forestry and Land Scotland (FLS) manages approximately 640,000ha across Scotland on behalf of the Scottish Ministers, which includes extensive rights to the minerals under the surface. Currently various sites with mineral interests are leased to minerals operators and worked as hardrock, sand and gravel quarries. In addition, a number of shorter term extraction licences and exploration agreements are granted to interested parties.

FLS seeks to obtain best value from the management of the assets under their control and to develop new income streams where possible. In order to assist them in this process FLS are seeking to appoint a minerals agent who is well engaged within the minerals industry to recommend and deliver potential new income streams.
