This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 50340000 - Repair and maintenance services of audio-visual and optical equipment
- 51313000 - Installation services of sound equipment
- 51314000 - Installation services of video equipment

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

Brunel University London is seeking a supplier able to supply a scalable Camera and Recording / Analysis System to assist with the simulated practice learning, formative feedback and summative assessment of our students within the College of Health, Medicine and Life Sciences and the new Brunel Medical School (opening September 2022) and within health sciences for a period of up to 10 years (5+3+2).

From September 2022, Brunel University London will be introducing a 5-year undergraduate degree in medicine leading to the award of a Bachelor of Medicine, Bachelor of Surgery (MBBS) degree. The new Brunel Medical School is part of the College of Health and Life Sciences. Our 5- year MBBS is open to students from outside the UK and EU.

The College already runs a number of successful undergraduate and postgraduate health science courses. Brunel Medical School is part of a joint strategy with local trusts, creating inter-professional learning opportunities and supporting the delivery of an integrated course. The camera system will assist with the simulated practice learning, formative feedback and summative assessment of our students within the medical school and within health sciences (initially nursing and physician associate students, but in the future students studying on our other allied health professional courses). We would want to use this system to record the student's actions in a variety of situations and for all students to participate in the learning, including those learning remotely. Initially, we require the cameras to be installed in our simulated hospital wards (based across two different buildings on our campus), simulated community and mental health setting and our communication training rooms (all in one building), which also double-up as our objective structured clinical examination (OSCE) rooms. Our specification setting out our full requirements can be accessed via BUL's e-Sourcing portal, when we approach the market on 14th July 2021.

Brunel University London is one of the most diverse universities in the UK, where equality and diversity are integral to our ethos because it is critically important that all our staff and students are able to study, work, relax and socialise in a welcoming and inclusive environment which fosters a culture of mutual regard and respect.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £350,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Start date

11 October 2021

End date

31 August 2027

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No
